6:00 Adjourn

Have you had questions about what the most effective and economical options for controlling weeds and forage insects are? Ever wonder about the different spray tip nozzles available and which ones might be right for your situation? This program will answer these questions and many more and provide you with valuable information, practical suggestions, and the knowledge needed to select economical and effective herbicide and insecticide products. A herbicide price comparison CD will be provided to help you make more economical choices when it comes to selecting a herbicide.

For more information on this program please contact Michelle Sensing @ 903-834-6191.
